This is a huge opportunity to diversify the tech industry

Internships are...

- on-the-job training within a team
- paid, beginner-suitable opportunities
- open to anyone regardless of educational background

- Duration - 6 months
- Salary - at least living wage
- Structure - (personal) project
- Support - mentor and team integration

- Be nice in interviews!
- Planned learning
- Regularly check in to see how they're doing
- Actively include them in team meetings
